

FACT SHEET: The Adult Cognitive Wellness Centre

For Physicians and Other Healthcare Professionals

6676 203rd Street, Langley, BC (604) 418-1476

What is The Adult Cognitive Wellness Centre?

Our "Adult Cognitive Wellness Centre" is similar to other Adult Day Programs, but our focus is on holistic cognitive wellness (cognitive stimulation activities, rehab, daily exercises & socialization).

Who is it for:

Anyone 50+, specifically those living with symptoms of dementia. Our program also offer respite for family caregivers.

We have special days for:

- Early stage
- Young onset under age 65
- Moderate symptoms of dementia

We use evidence-based practices to maintain or improve cognitive function and overall holistic wellness.

Benefits to Your Clients

- A Dementia-Friendly specialized Centre that uses evidence-based practices to encourage cognitive stimulation and overall wellness for all stages.
- Socialization opportunities.
- Supportive staff who are compassionate and well trained in dementia care & therapeutic recreation.
- Promotion of independence and confidence
- Being able to receive from and give emotional support to their peers - they are not "alone."
- We conduct regular checks on blood pressure, weight, blood sugar and assist with wound care & medication assistance.

Benefits to Your Patient's Families

- Family caregivers receive respite opportunities without having to be put on a government wait-list for an Adult Day Program.
- The Centre has flexible hours including weekend respite and rehab programming.
- We offer monthly group support for caregivers.
- We offer an evening mindfulness group.

Our Weekly Schedule

Daytime program runs Sunday to Sunday 9:30am – 4:00pm

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
